First Newsletter Rolls off the Press

We did it! Working together, we accomplished our goal -- our first newsletter has been distributed throughout our community. Many thanks to everyone who helped to get this project off the ground - the writers, the women who sorted the 6500 copies into groups of 50, our neighborhood coordinators and our wonderful volunteers who literally "walked the extra mile" to bring the newsletter to you, our neighbors, in University City. This cooperative spirit is true to our theme, "University City is more than a neighborhood."

Thanks for your great response to our inaugural edition. With your help and support (don't forget to send in those membership applications!) we'll grow and provide more information to you each month. We appreciate those who have come forward in the last few days to volunteer for future editions. More hands - and feet - are still needed; however, so if you have time or talent to share, we've got a job for you. Contact [Carole Pietras](#) if you would like to help with any of the following:

- Assistant Editor
- Advertising Manager
- Ad Sales
- Distribution Manager
- Neighborhood coordinator --at least three more needed.
- Newsletter distributor -- 50 more would lighten the load for all --distributors are needed in all areas, but especially:
 - Between Genesee and Regents, south of Governor Dr.
 - West of Regents, both North and South of Governor Dr.

Also needed -- volunteers from the following complexes to place newsletters in proper locations there.

- Regency Villas Condominiums
- The Villas at the Park Condominiums
- University City Village Apts.
- apartment complexes north of Governor along Genesee

The community could use your help and we all benefit in the end!

A scanned copy of this premier issue has been placed in .pdf format for [viewing](#). The file will load a little slow, but once loaded it can be printed out for easier reading.
