Just east of La Jolla, sits the community of University City. Separated by Rose Canyon, the north consists mainly of newer built condominiums and apartments intertwined with commercial development. Dubbed the "Golden Triangle" by the developers of UTC from its location inside the triangle formed by highways 5, 805 and 52.

To the south sits the quiet family oriented neighborhood of homes lining San Clemente Canyon's Marian Bear Memorial Park. Surrounded by open space, this small and peaceful community is a desirable place to live. It really is more than a neighborhood.
