

*** DRAFT - Aviation Update 2020 on January 29, 2020 – DRAFT ***

UCCA's Citizens Advocating Safe Aviation (CASA) committee is coordinating an **Aviation Update 2020** information session at the University Community Library, 4155 Governor Drive, from 6 PM to 7:30 PM on January 29, 2020.

University City is located at the crossroads of aviation traffic. Residents experience local flights arriving and departing from San Diego International, Montgomery-Gibbs, Gillespie Field and MCAS Miramar airports on a daily basis as well as countless trans-regional, trans-continental flights, and international flights. San Diego International Airport has plans to rebuild Terminal 1 to accommodate higher numbers of passengers, Montgomery-Gibbs Airport has plans to increase capacity, and the FAA is implementing its NextGen plan for the redesign of airspace. MCAS Miramar is expecting a new air-frame (the single engine F-35C) and is in the process of updating their Airport Installation Compatibility Use Zone (AICUZ) document. In addition, University City is undergoing a community plan update; and the UCSD and University City student, resident and employee populations are growing rapidly. There is a lot going on — both on the ground and in the air. All the more reason for an **Aviation Update 2020** information session.

Speakers include representatives from:

- MCAS Miramar
- Quiet Skies La Jolla
- San Diego International Airport (SAN)
- Montgomery-Gibbs Airport
- Montgomery Gibbs Environmental Coalition
- Citizens Advocating Safe Aviation
- City Councilmember Barbara Bry's office
- UCSD
- (invited) Federal Aviation Administration
- (invited) General Atomics
- (invited) County Supervisor Kristin Gaspar's office
- (invited) US Congress Representative Scott Peters's office

The format of Aviation Update 2020 will be similar to a community plan meeting with an open forum comment period (limit 2 minutes each). Then each presenter will have up to 10 minutes to speak on their topic. We will hold all questions to the end. Each speaker is asked to prepare a one page information sheet. This will not be a debate; this is an information session.

Those who would like more information or who have a topic to suggest may contact the event planner Diane Ahern through CASA's email at citizensadvocatingsafeaviation@gmail.com or directly at aherndiane@gmail.com. Diane Ahern is a volunteer and University City Community Association's publicity and promotions chair. She is the liaison to Citizens Advocating Safe Aviation and to MCAS Miramar Community Leaders Forum.

** Information in this announcement is current as of 01/08/2020 and subject to change without notice. The full agenda and speaker list will be posted on the University City Community Association news site at www.UniversityCityNews.org prior to the January 29, 2020 Aviation Update 2020 information session. **
