

Fire Safe Councils (FSCs) help to keep San Diego “Fire Safe”.

As volunteer community-led organizations, Fire Safe Councils seek to:

- **Prevent** structure and wild fire
- **Prepare** residents, homes, neighborhoods, and environments in the event of fire

Diane Ahern, President, UC FSC
UCFireSafeCouncil@gmail.com

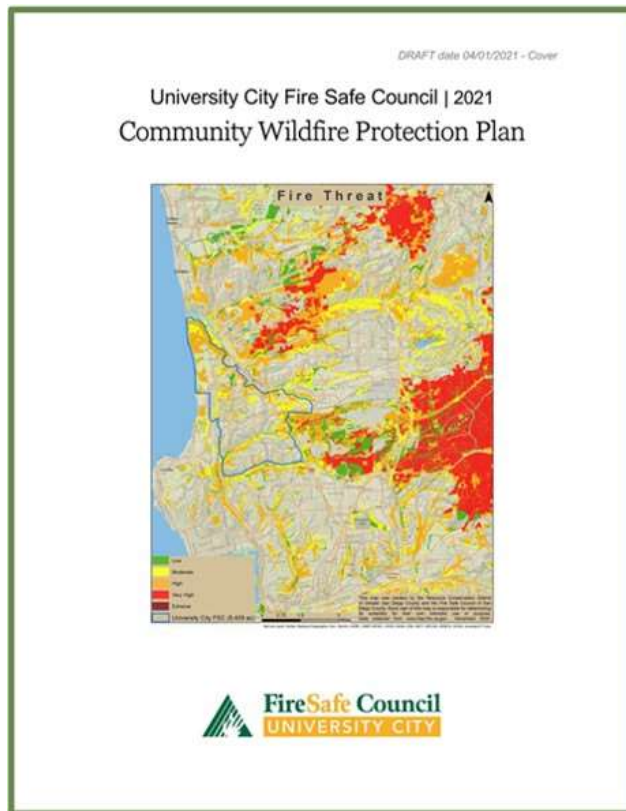

Local Fire Safe Councils know the unique challenges our communities face.

We implement projects such as community awareness and education related to:

- home and structure fire protection
- defensible space
- fuel reduction
- evacuation planning

Community Wildfire Protection Plan (CWPP)

CWPP is developed collaboratively by residents and community members with the City of San Diego Fire-Rescue Department and federal, state, county, and the City of San Diego management agencies.

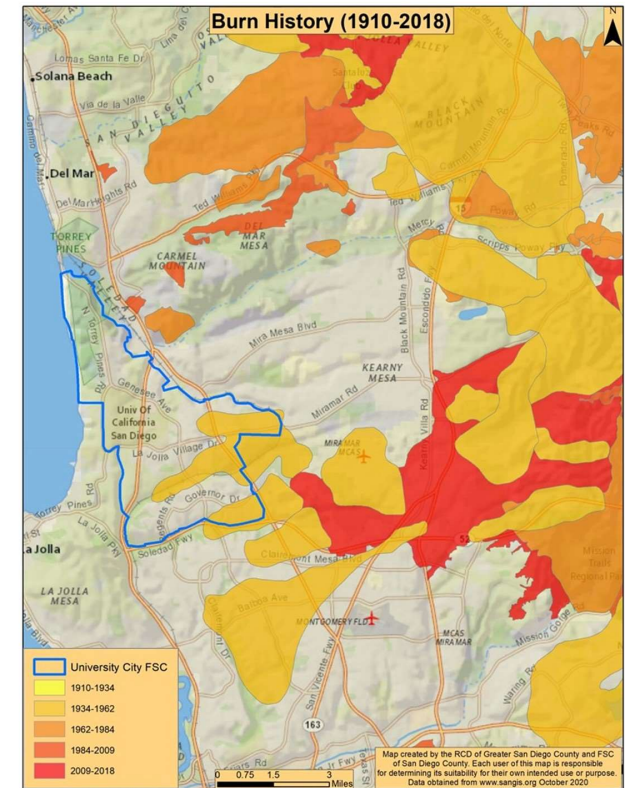

- ***Does*** represent a blueprint for fire **prevention** and **preparedness** at the neighborhood level.
- ***Does*** organize a community's efforts to protect itself against both structure and wildfire.
- ***Does*** empower residents and community members to move in a cohesive, common direction.
- ***Does not*** propose activities or projects subject to CEQA.

UCFireSafeCouncil@gmail.com

Community Wildfire Protection Plan (CWPP)

CWPP template was developed by SD County Fire Safe Council.

- Sections include:
 - Community overview, fire history and resources
 - Community engagement and education
 - Structural hardening and defensible space
 - Fuels treatment and evacuation planning
 - Other mitigation and preparedness projects
 - Maps, meeting tracking, and CWPP approval documentation

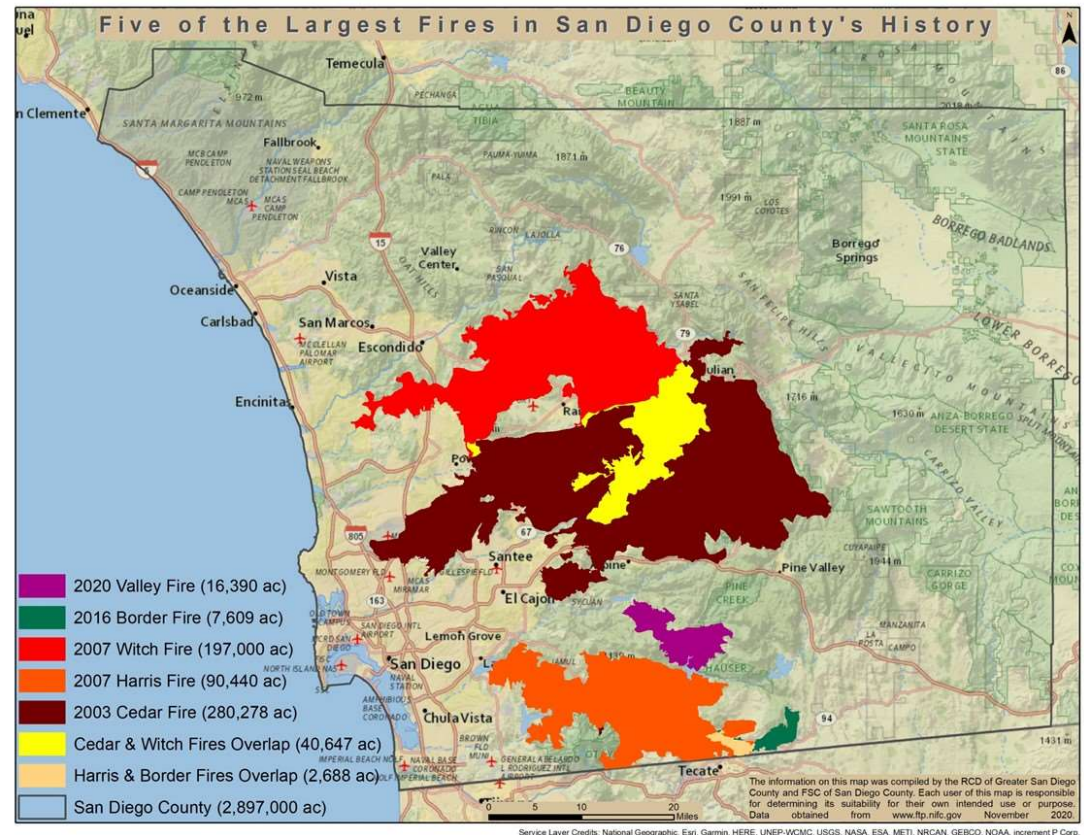

Diane Ahern, Univeristy City Fire Safe Council,

Fire Safe Council San Diego County: firesafesdcounty.org
Resource Conservation District: rcdsandiego.org

The Fire Safe Council of San Diego County is the umbrella for local Fire Safe Councils.

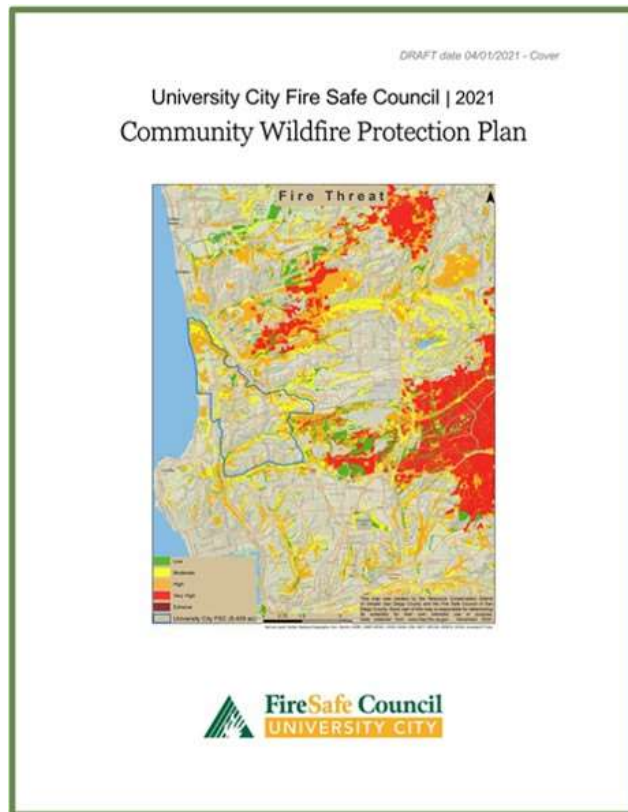

- provides support to existing Fire Safe Councils
- provides support to FSCs to facilitate development, review, and approval of CWPPs
