

AT&T Modification – SS0074

10950 North Torrey Pines Road

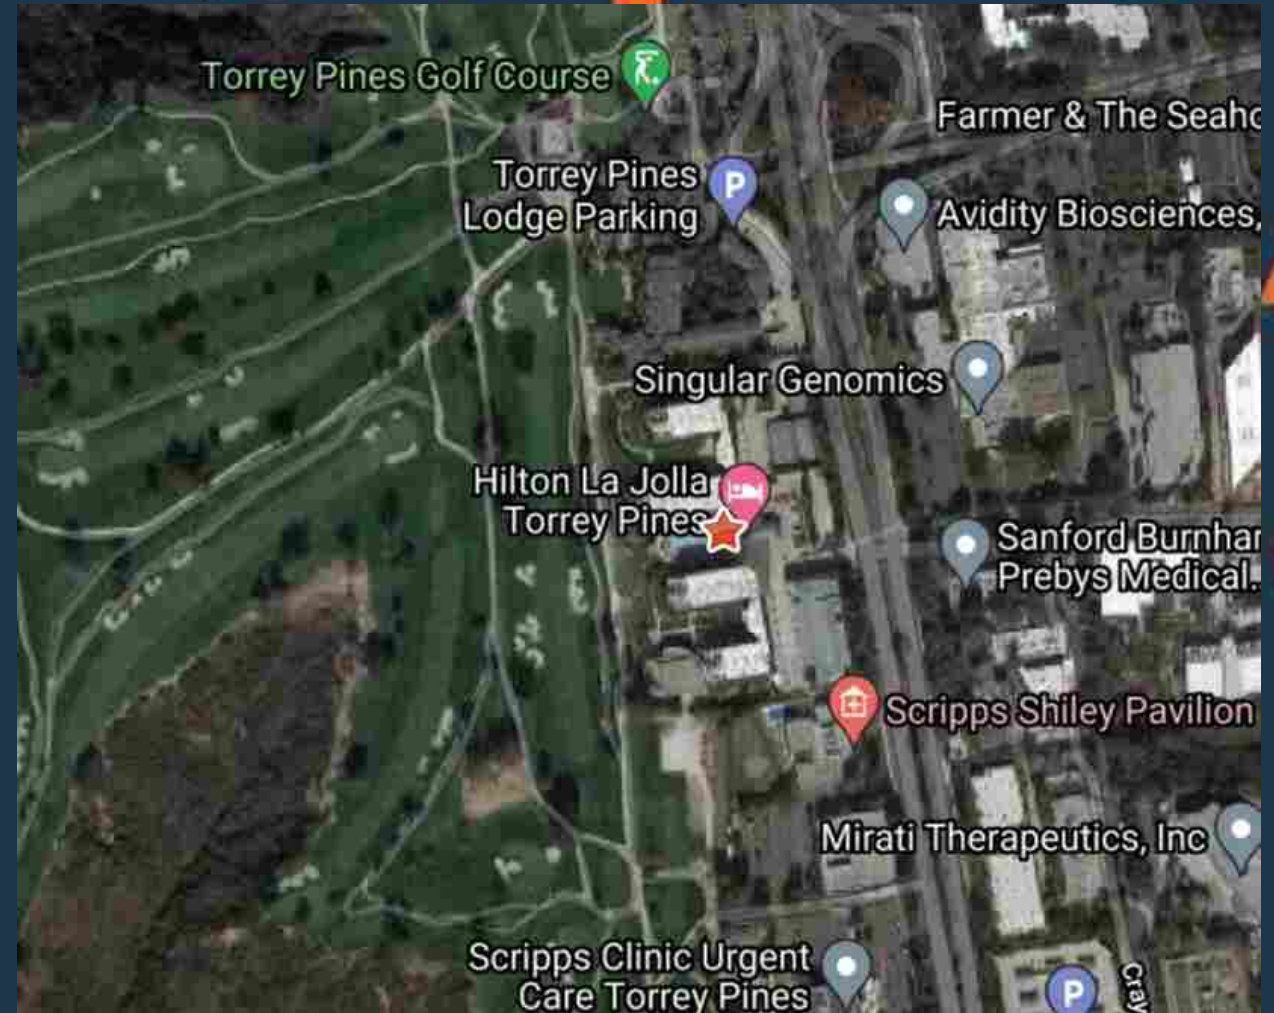

La Jolla, CA 92037

MD7

AT&T

- Originally approved in 2013 under Coastal Development Permit No. 1075293. Expires 2/13/2023.
- Request for the continued use and modification to existing facility.
- Zone: CV-1-1
- Surrounding Uses
 - North: Commercial - Visitor
 - South: Medical
 - East: Industrial
 - West: Open Space

Project Goal

Hilton Torrey Pines

WHAT: The purpose of this project is to update the equipment on an existing monopine as well as install an additional sector to the façade of an existing building on the south side of the property. A small equipment area will also be added and will be screened from public view.

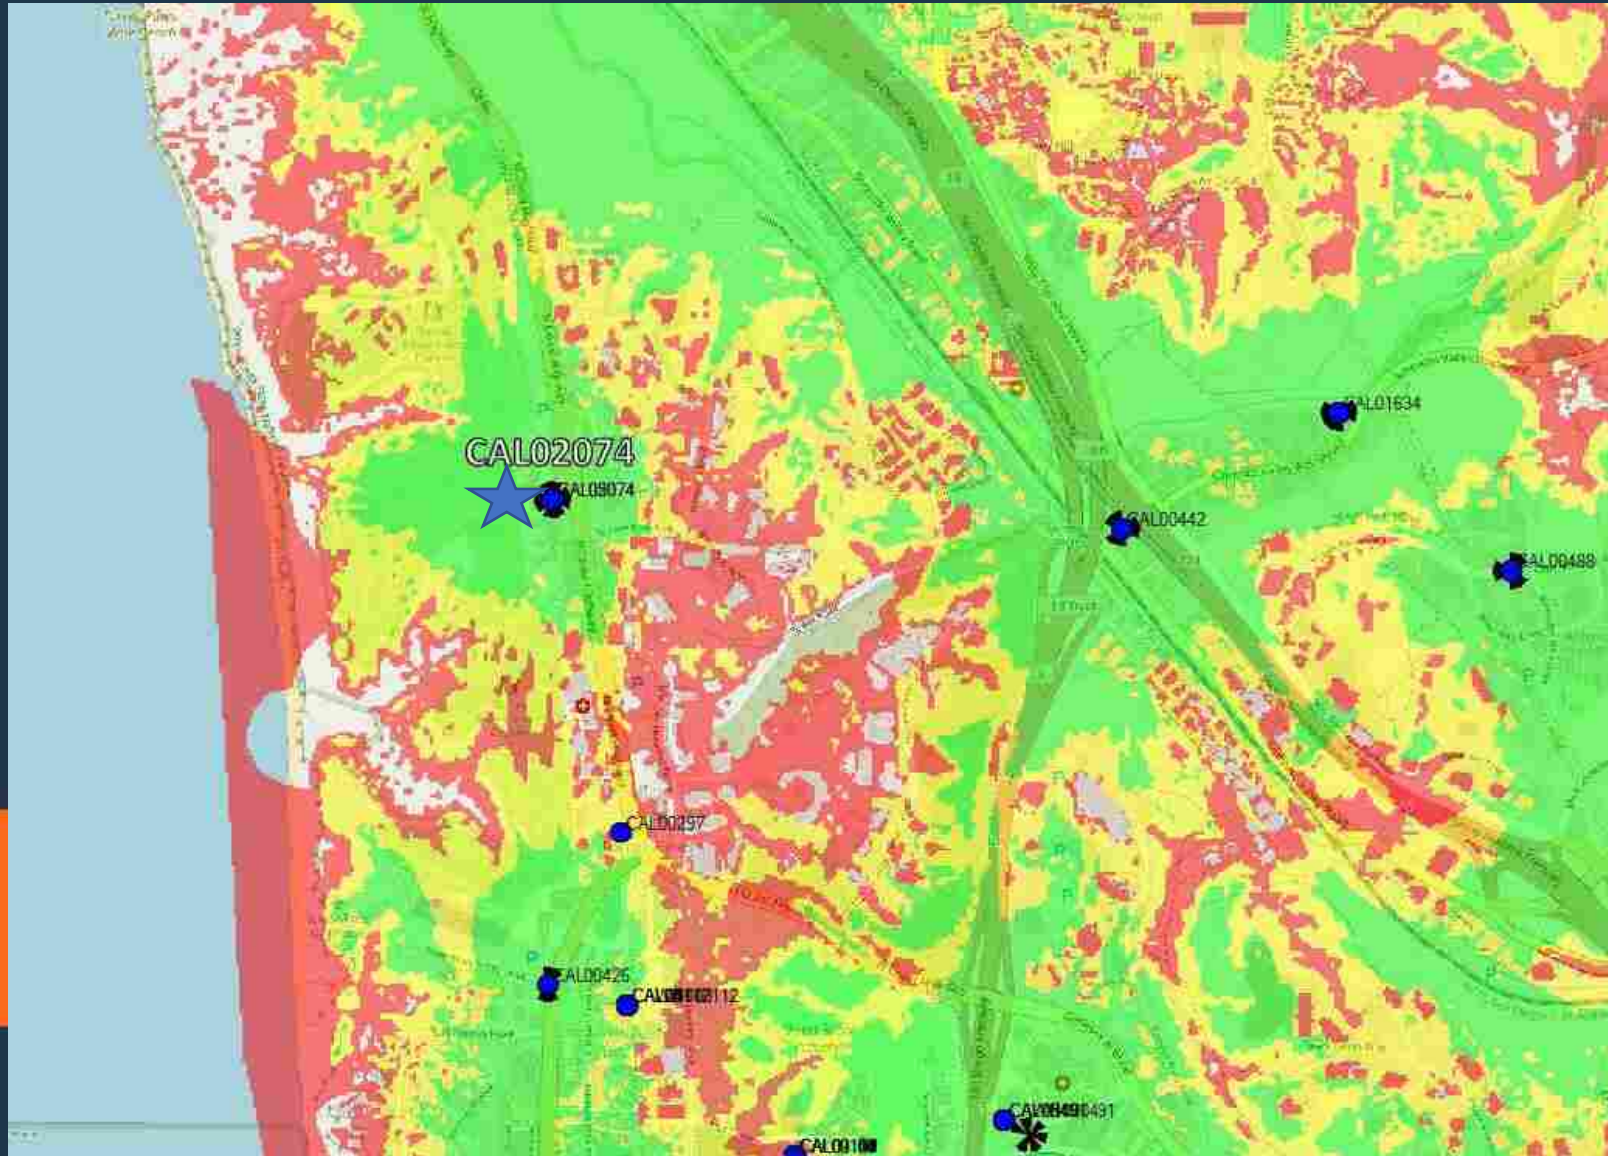

WHY: Increase coverage and capacity to the golf course and the surrounding areas.

Scope of Work

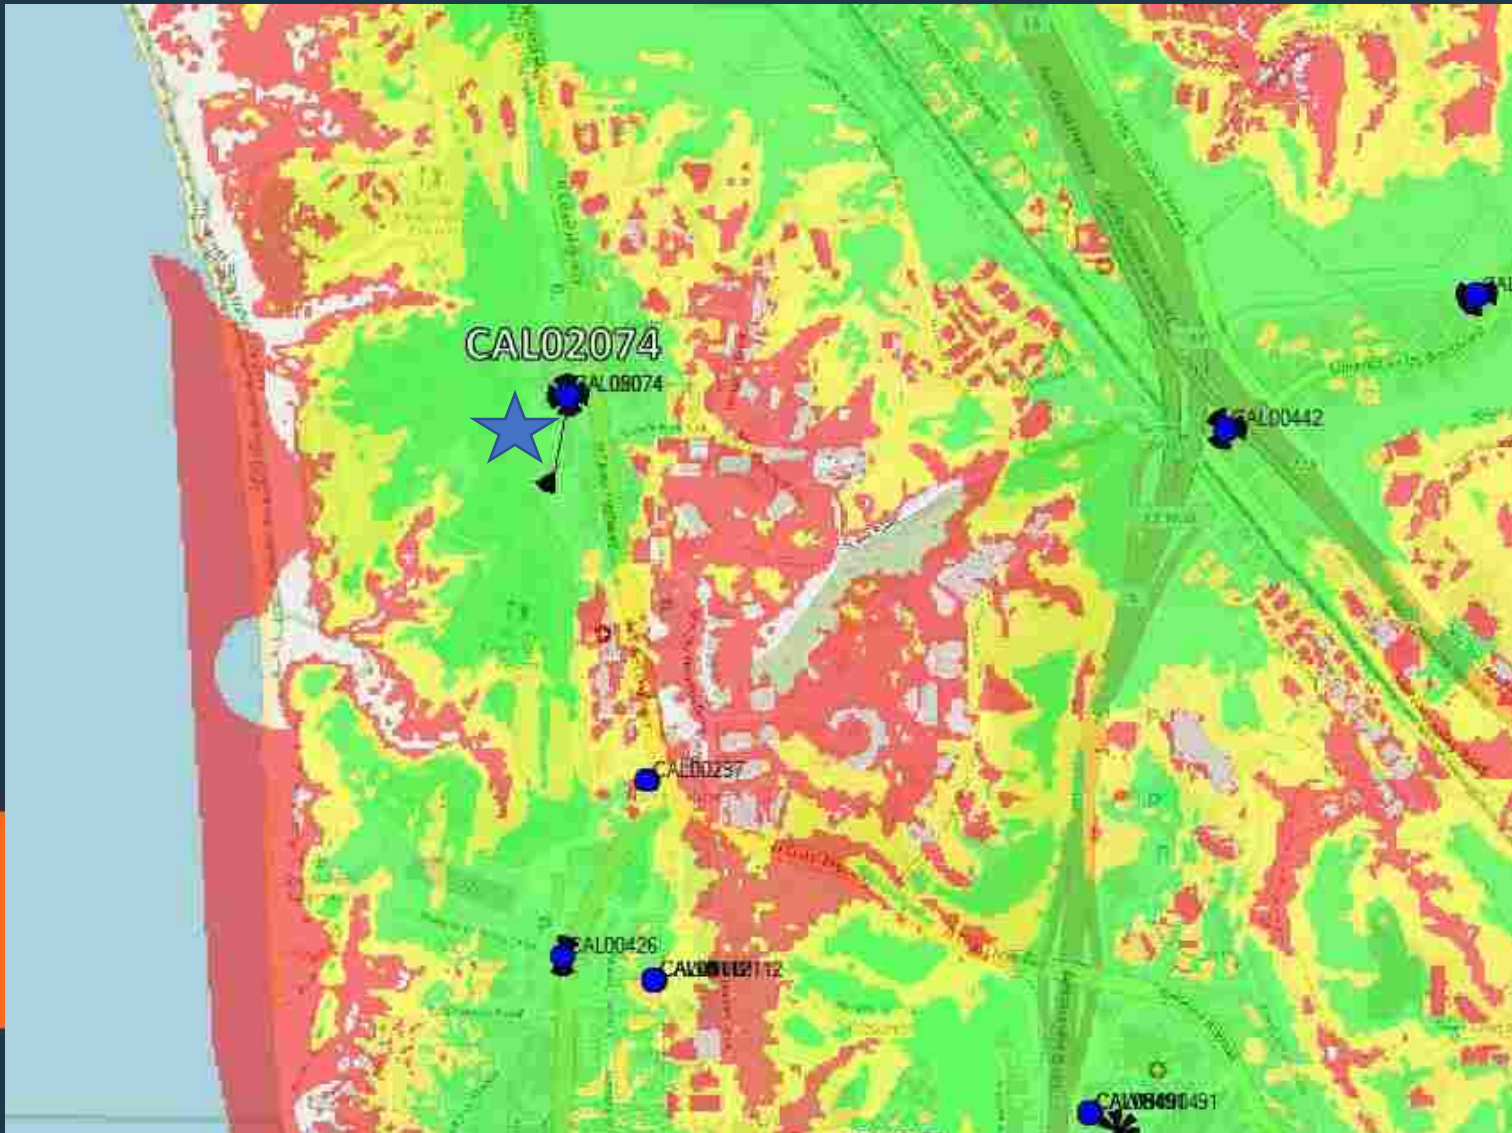

5G NR Radio and Sector Add Combo

- **5G NR Radio**
 - Remove and install (4) panel antennas
 - Remove and install (4) RRUs
 - Install (1) new cabinet at ground level
- **Sector Add**
 - Install (4) panel antennas with side skirts and chinstraps
 - Install (8) total RRUs on and behind parapet
 - Install (2) cabinets at building exterior wall
 - Install rebranching on existing monopine
